What Has MGEC Done for Me Lately?

Fair Question – Here are Some Answers

We're working hard at MGEC to provide services and benefits that are of value to you. Here are some of the things we've accomplished recently:

- *Kept dues lowest of all units at just \$14.96 per pay period*
- *Created a new, higher paid classification: Engineering Specialist Principal*
- *Eliminated co-pays for use of Minute Clinics for health care needs*
- *Provided additional vacation accruals for employees with past-experience working for an employer in the private, military, or public sectors*
- *Won higher rates of pay, based on wage compensation studies, for employees who were being paid significantly less than their counterparts with other employers*
- *Effectively advocated with MN Board of AELSLAGID changes that affect when an engineer's signature is required, on what documents and what an engineer's signature means (in terms of liability) in cases where some of the work was done by others*
- *Worked to secure pension funding to ensure continued "defined benefit" pensions for state employees*
- *Provided professional ethics training*
- *PE Review courses provided at no cost to full members (at least one year full member) to assist with preparing for PE exam*
- *Successfully assisted over ten people in seeking promotions through reallocation*
- *Provided employees with an option to convert vacation accruals to deferred compensation*

MGEC provides your best insurance policy for representation on the job. Regardless of your membership status, MGEC provides staff to assist you when needed. We speak out for you. Offer opportunities for you to be included. We don't take political sides; but will educate you as to the intended actions of any official, party, or branch of state government. The benefits you have now came from the contributions of dues and work of members before you.

What is that worth to you?
