---------------------------------------	----	------------------------------------	----

Why are you running an MGEC office?

I am running for MGEC office because I think it would be a great learning experience and a good way to give back to our membership. Engineering positions are critical to the work that we all do and I want to help represent us all in the best way possible. I'd like to share some ideas on how to get more people involved with MGEC. I have a family history of union involvement and this would be an opportunity to continue that tradition.

Additional information you want to share with members:

I look forward to bringing your ideas forward to the Executive Board. Please feel free to share them with me and I will help pass them along!
